Art Unit: 1732

***Election/Restrictions***

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:

I. Claims 1-4, 6-17 and 19-25, drawn to a process, classified in class 264, subclass 494.

II. Claims 5, 18 and 26-33, drawn to a device, classified in class 422, subclass 50.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I and II are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make another and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case, the product as claimed can be made by another and materially different process such as by assembling microscale components. The product as claimed can also be made by another and materially different process such as a process without hydrodynamic focusing (e.g., using prearranged cross-sectional dimension or area of flows).

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by

Art Unit: 1732

their different classification, restriction for examination purposes as indicated is proper.

4. A telephone call was made to Lisa A. Haile, applicant's representative, on 03 August 2005 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Leo B. Tentoni whose telephone number is (571) 272-1209. The examiner can normally be reached on Monday - Friday (6:30 A.M. - 3:00 P.M.).
